

Java

```
class Solution {  
    public String removeStars(String s) {  
  
    }  
}
```

JavaScript

```
/**  
 * @param {string} s  
 * @return {string}  
 */  
var removeStars = function(s) {  
  
};
```

C++

```
class Solution {  
public:  
    string removeStars(string s) {  
  
    }  
};
```
